The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that

Page 2

form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United

States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Talbot et al or

Lo et al.

Both Talbot et al and Lo et al place an IC device in a vacuum chamber, bombard

a selected site with an electron beam, detect secondary electrons and compare a

resulting image with a reference image to generate a value. See columns 7 an 8 of

Talbot et al and column 9 of Lo et al.

The prior art made of record and not relied upon is considered pertinent to

applicant's disclosure. Kuribara, Nozoe et al and Weiner et al also place an IC device in

a vacuum chamber, bombard a selected site with an electron beam, detect secondary

electrons and compare a resulting image with a reference image to generate a value.

See columns 4 and 5 of Kuribara, columns 3 to 5 of Nozoe et al and column 2 of Weiner

et al.
